RE: UE-240250 – Avista Utilities Tariff WN U-28, Proposed Revisions to Tariff Schedule 65 – Interconnection Standards

Dear Mr. Killip:

On April 12, 2024 Avista Corporation, dba Avista Utilities (Avista or the Company), filed its proposed modifications to its electric tariff Schedule 65, “Interconnection Standards”, to align the processes for interconnecting generating facilities (other than net metering systems) subject to the jurisdiction of the Commission with the processes provided under Avista’s Open Access Transmission Tariff (OATT). It was brought to Avista’s attention that a broken link was provided on First Revision Sheet 65 included in the Company’s original filing. Avista submits a corrected link in Substitute First Revision Sheet 65.

Avista respectfully requests that the Commission approve Avista’s proposed Schedule 65 modifications effective May 17, 2024. If you have any questions regarding this information, please contact me at 509-495-2782 or shawn.bonfield@avistacorp.com.

Sincerely,

/s/ *Shawn Bonfield*

Shawn Bonfield
