The Washington Utilities and Transportation Commission (Commission) believes that Greentree Dozing (Greentree Dozing or Company) violated Revised Code of Washington (RCW) 19.122.055(1)(a) by failing to notify the one-number locate service and causing damage to an underground gas facility.

RCW 19.122.055(1)(a) states, in part, that excavators who fail to notify a one-number locator service and cause damage to an underground gas facility are subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports, investigation reports, the One Call Center database, and communications with the Company. The documents reviewed identified a natural gas event that involved Greentree Dozing damaging a natural gas facility while excavating without a valid locate ticket.

The Commission reviewed findings and recommendations made by Staff and hereby notifies you that it is assessing a \$1,000 penalty (Penalty Assessment) against you on the following grounds:

1. **Alleged Violation:**

On January 3, 2024, Greentree Dozing was excavating at 9404 Southwest Harbor Drive, Vashon, Washington. While excavating, Greentree Dozing workers struck and damaged an underground Puget Sound Energy (PSE) natural gas facility. The Damage Information Reporting Tool (DIRT) report submitted by PSE on February 14, 2024, indicated that Greentree Dozing was excavating without a valid request to locate underground utilities.

2. Analysis:

The alleged violation concerns RCW 19.122.055(1)(a), which states, in part, that an excavator must contact the one-number locate center before beginning excavation. According to PSE's Gas First Response (GFR) report, on January 3, 2024, Baron Construction was using a backhoe to dig a trench for a sewer line when they snagged the water line that was underneath the 2019 5/8 IP service gas line, severing it. The ELM report identified Greentree Dozing as the company that caused the damage. The ELM report further documented the damage to the gas line and noted that there were no locate requests for this location. PSE advised that Greentree Dozing would be treble billed.

Staff reviewed the One Call ticket center database and found a locate ticket (#23378542) that was requested by Greentree Dozing for 9404 SW Harbor Drive, Vashon, WA on September 18, 2023. The locate ticket expired on November 2, 2023, which was two months prior to the damage.

Staff communicated with Greentree Dozing via email on March 29, 2024. On April 7, 2024, the Company responded acknowledging that it had a previous locate ticket for the property that may have expired. Greentree Dozing explained that it was relocating a water yard hydrant and upward pressure was placed on the gas line causing it to start leaking. Staff communicated with the Company on May 10, 2024, to clarify which company caused the damage. Greentree Dozing stated it was working for Baron Construction, but it was Greentree's backhoe and driver who caused the damage.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. How serious or harmful the violation is to the public.

This incident could have been significantly more harmful to Greentree Dozing workers, utility technicians, nearby homeowners, and the public, and it could have resulted in severe injury and/or loss of property.

2. Whether the violation is intentional.

The violation appears to be due to negligence rather than a lack of knowledge of Washington State's Dig Law. Over the past 12 months, Greentree Dozing has submitted 46 requests to the One Call Center for locates. This demonstrates Greentree Dozing's knowledge of requirements and its responsibility to contact the one-number locate service before beginning excavation.

3. Whether the company self-reported the violation.

Greentree Dozing did not self-report the violation. The Commission became aware of the violation when PSE filed a DIRT report.

4. The likelihood of recurrence.

The likelihood of recurrence depends on the Company's actions going forward and its willingness to notify the one-number locate service every time before beginning excavation.

5. **The Company's previous Warning Letter**

On July 19, 2021, the Commission mailed an Alleged Violation of Washington Dig Law letter to Greentree Dozing. The letter included detailed information about Washington State's Underground Utility Damage Prevention Act, requirements for submitting utility locate requests before excavating, and the possibility of penalties for each violation. The Commission mailed the letter after receiving a report of damage caused by Greentree Dozing on May 27, 2021, that occurred because the Company failed to submit a request to locate underground utilities before excavating.

The Commission has considered these factors and determined that it should penalize Greentree Dozing as follows:

- \$1,000 penalty for one violation of RCW 19.122.055(1)(a) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:
 - 1) Company supervisors and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
 - 2) The Company must submit documentation of that attendance to the Commission; and
 - 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

You must act within 15 days after receiving this Penalty Assessment to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:

- Greentree Dozing management and field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
- **The Company must submit documentation of that attendance to the Commission;** and
- Greentree Dozing must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violation; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> within **FIFTEEN (15) days** after you receive this Penalty Assessment. If you are unable to use the web portal, you may submit it via email to records@utc.wa.gov.
