BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**Docket UE-210795
Puget Sound Energy
PSE 2021 Clean Energy Implementation Plan**

FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 170:

Please provide all documents regarding program theory or rationale regarding the scoring of CBIs associated with program concepts outlined in Appendix D-3. For example, how was it determined that Improved Home Comfort would have 0 or 1 scores for each of the program concepts (e.g., 0 for Multi-Family Unit Battery Program)?

Response:

Puget Sound Energy (“PSE”) possesses no additional documents regarding program theory or rationale related to the scoring of customer benefit indicators (“CBI”) associated with the proposed distributed energy resource (“DER”) program concepts outlined in Appendix D-3 of PSE’s Clean Energy Implementation Plan (“CEIP”). Refer to Appendix D-3, tab “CBI-Scoring,” columns “H” and “AG,” for scoring rubric and basis for determining score of each distributed energy resource program concept for each CBI, respectively.
