REBUTTAL TESTIMONY OF

David Pratt

STAFF OF WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

Staff's Investigation of Shuttle Express in Docket TC-161257

DOCKETS TC-143691, TC-160516, TC-161257 (consolidated)

April 24, 2017

TABLE OF CONTENTS

| I. | INTRODUCTION 1 | |
|-----|----------------------|---|
| II. | REBUTTAL TESTIMONY 1 | l |

| 1 | | I. INTRODUCTION |
|----|----|---|
| 2 | | |
| 3 | Q. | Please state your name and business address. |
| 4 | A. | My name is David Pratt. My business address is 1300 S. Evergreen Park Drive S.W., |
| 5 | | P.O. Box 47250, Olympia, WA 98504. |
| 6 | | |
| 7 | Q. | Are you the same witness who provided testimony in this proceeding, Exhibit |
| 8 | | No. DP-1T, on March 17, 2017, on behalf of Commission Staff? |
| 9 | A. | Yes. |
| 10 | | |
| 11 | | II. REBUTTAL TESTIMONY |
| 12 | | |
| 13 | Q. | Have you read the response testimonies of Wesley Marks, Paul Kajanoff, and |
| 14 | | Don Wood? Exhibit Nos. WAM-2T, PK-2T and DJW-3T. |
| 15 | A. | Yes. |
| 16 | | |
| 17 | Q. | After reading these testimonies, do you wish to revise any of your initial |
| 18 | | testimony? |
| 19 | A. | No, I stand by my initial testimony and penalty recommendation. |
| 20 | | |
| 21 | Q. | Do you have any general reactions to what you read? |
| 22 | A. | It is important to remember that Shuttle Express has been penalized in two previous |
| 23 | | dockets for its use of non-owned vehicles and non-employed drivers. In my view, the |

| 1 | | company knows the rules well and simply believes it can outsmart the Commission |
|----|----|---|
| 2 | | by using labels like "rescue service" or, in the current investigation, "upgrade" to |
| 3 | | obscure or excuse its violations. The explanations and excuses keep changing, but |
| 4 | | the fundamental violation does not. In each case, the company has used non-owned |
| 5 | | vehicles and non-employed drivers to provide auto transportation service, in |
| 6 | | violation of WAC 480-30-213. |
| 7 | | |
| 8 | Q. | Does any witness refute your finding that Shuttle Express used non-owned |
| 9 | | vehicles and non-employed drivers to complete 40,727 trips that originated as |
| 10 | | auto transportation bookings? |
| 11 | A. | No. |
| 12 | | |
| 13 | Q. | Mr. Wood suggests that Shuttle Express's violations should be excused because |
| 14 | | all customers ultimately had "their transportation needs met" and no passenger |
| 15 | | formally complained about the practice. Exh. No. DJW-3T at 19:13-16; 20:4-7. |
| 16 | | If true, does this fact change your analysis? |
| 17 | A. | No. Mr. Wood is basically arguing that a regulated company can violate Commission |
| 18 | | rules so long as the customer ultimately gets from Point A to Point B and doesn't |
| 19 | | complain. I strongly disagree with that logic. A violation is a violation even if the |
| 20 | | customer's "transportation needs" are met. As a safety regulator, I would be very |
| 21 | | worried if the Commission began to judge rule violations based on that standard. |
| | | |

Mr. Marks claims that Shuttle Express's violations should be excused because 1 **Q**. 2 Staff declined to seek penalties for "single reservation trips" in Docket TC-120323. Exh. No. WAM-2T at 28:7-29:4. He also claims that Staff's current 3 position is an "about face on its position of just four years ago." Exh. No. 4 5 WAM-2T at 31:1-2. Do you agree? 6 A. Not at all. In the previous case, Staff chose not to pursue violations for single stop 7 trips. But we never came out and said that the single stop trips were lawful. In any 8 event, my understanding of the issue has improved since the previous investigation. I 9 now better understand that the use of non-owned vehicles and non-employed drivers 10 to provide auto transportation is a violation of WAC 480-30-213, regardless of the 11 number of stops. I no longer consider multi stop versus single stop to be a material 12 distinction. In hindsight, I might have included the single stop trips as violations in 13 Docket TC-120323. 14 The Commission should keep in mind that "single reservation," "single stop," 15 and "multi stop" are not defined in WAC 480-30. I am not completely sure I even 16 understand precisely how Shuttle Express defines those terms. Regardless, the 17 distinction is ultimately irrelevant under WAC 480-30-213. 18 19 Q. To the best of your knowledge, did you ever tell Shuttle Express that its use of 20 non-owned vehicles and non-employed drivers was lawful if they were restricted

21 to "single stop" or "single reservation trips?"

22 A. No. To the best of my knowledge, I never said that.

23

| 1 | Q. | Please refer to Exhibit No. DP-5, which is the Commission's Final Order 04 |
|----|----|---|
| 2 | | penalizing Shuttle Express in Docket TC-120323. As you understand this order, |
| 3 | | did the Commission conclude that an auto transportation company's use of non- |
| 4 | | owned vehicles and non-employed drivers is lawful if the practice is restricted to |
| 5 | | "single stop" or "single reservation trips?" |
| 6 | A. | I see nothing in Order 04 that says that. |
| 7 | | |
| 8 | Q. | Mr. Kajanoff testifies that he discussed the use of independent contractors with |
| 9 | | Staff members Gene Eckhardt and Penny Ingram, and that both "agreed that |
| 10 | | single stops trips were legal and not an issue in the investigation [in Docket TC- |
| 11 | | 120323]." Exh. No. PK-2T at 23:17-18. What is your reaction? |
| 12 | A. | I do not know if Gene Eckhardt or Penny Ingram ever said anything of the sort. I was |
| 13 | | not part of those discussions, assuming they actually took place. I have never |
| 14 | | adopted the purported statements as my own and I do not adopt them here. Besides, |
| 15 | | neither Gene Eckhardt nor Penny Ingram conducted that investigation. The Staff |
| 16 | | investigator in Docket TC-120323 was Betty Young, who reported to me. Ms. |
| 17 | | Young's investigation report nowhere mentions any statements by Gene Eckhardt or |
| 18 | | Penny Ingram. |
| 19 | | Also, Mr. Eckhardt retired from the Commission in 2015, and Ms. Ingram is |
| 20 | | currently on extended leave. It is really unfair for Mr. Kajanoff to attribute |
| 21 | | statements to Staff members who are unavailable to testify. He can attribute anything |
| 22 | | he wants to them, and I have no way to prove him wrong. All I can say is that, again, |
| 23 | | I do not adopt or endorse the purported statements. |

| 1 | | Distinguishing single stop from multi stop service obscures the primary issue |
|----|----|--|
| 2 | | here, which is Shuttle Express's ongoing disregard of the vehicle and driver rule. As |
| 3 | | I discussed above, Shuttle Express violated WAC 480-30-213 by operating vehicles |
| 4 | | it does not own and by using drivers it does not employ, and whether the trip was |
| 5 | | single stop or multi stop does not affect the violations that Staff has alleged. |
| 6 | | |
| 7 | Q. | How do you respond to Mr. Marks' assertion that using non-owned vehicles and |
| 8 | | non-employed drivers is the same as making "alternate arrangements for |
| 9 | | passengers" under WAC 480-30-036(2)? Exh. No. WAM-2T at 29:7-13; 32:1-9. |
| 10 | | Does that WAC provision excuse the company's violations? |
| 11 | A. | No, and I find this claim to be quite a stretch of the imagination. I believe the intent |
| 12 | | of the alternate arrangements rule is to allow a company to make alternate |
| 13 | | arrangements to transport customers in the case of unusual circumstances or an |
| 14 | | emergency, not to allow daily, ongoing use of non-owned vehicles and non- |
| 15 | | employed drivers to provide regulated transportation services. Examples of unusual |
| 16 | | circumstances or emergencies might include weather-related events or a natural |
| 17 | | disaster. Another example could be a small company that only operates three |
| 18 | | vehicles. If two of those vehicles were to break down at the same time, that company |
| 19 | | might need to make alternate arrangements to transport its customers while its |
| 20 | | vehicles are being repaired. The facts in this case show that Shuttle Express used |
| 21 | | non-owned vehicles and non-employed drivers 40,727 times over a 33 month period, |
| 22 | | which averages to over 41 trips per day. That is not an acceptable use of the alternate |
| 23 | | arrangements rule. |

| 1 | Q. | Mr. Marks claims that, in each instance, the company "honored the regulated |
|----|----|--|
| 2 | | rate" originally quoted to the customer. Exh. No. WAM-2T at 30:12; see also |
| 3 | | 32:10-16. If true, would this fact change your analysis? |
| 4 | A. | No. That fact merely proves my point. Shuttle Express switches the customer to a |
| 5 | | non-owned vehicle operated by a non-employed driver but continues to charge the |
| 6 | | tariffed auto transportation rate. The vehicle and the driver may have changed, but |
| 7 | | the fundamental transaction has not. |
| 8 | | |
| 9 | Q. | Mr. Marks suggests that the transaction is lawful because Shuttle Express |
| 10 | | contacts each guest and obtains "verbal approval to upgrade the passenger to a |
| 11 | | private vehicle." Exh. No. WAM-2T at 33:11-12. Assuming that is true, does the |
| 12 | | customer's "verbal approval" affect your analysis? |
| 13 | A. | My analysis remains the same. The original booking was for auto transportation |
| 14 | | service (not for "luxury car service," which is Shuttle Express's other major |
| 15 | | offering). The customer's "verbal approval to upgrade" to a private vehicle does not |
| 16 | | change the fundamental nature of the service. |
| 17 | | |
| 18 | Q. | Mr. Marks contends that the switch to a non-owned vehicle operated by a non- |
| 19 | | employed driver is an "upgrade." Exh. No. WAM-2T at 33:11-12. What is your |
| 20 | | response? |
| 21 | A. | Even if I assume that the switch is an "upgrade," my analysis does not change. Under |
| 22 | | WAC 480-30-213, Shuttle Express is not authorized to provide auto transportation |

| 1 | | services using non-owned vehicles and non-employed drivers. A violation is a |
|----|----|---|
| 2 | | violation even if the customer ends up feeling satisfied with the service. |
| 3 | | |
| 4 | Q. | But if the customer is satisfied, why are you concerned? |
| 5 | A. | As I explained in my initial testimony, I am concerned about the safety of the non- |
| 6 | | owned vehicles and the qualifications of the non-employed drivers. Auto |
| 7 | | transportation companies are required to follow a comprehensive set of vehicle and |
| 8 | | driver safety regulations. Under WAC 480-30-221, the company must comply with |
| 9 | | each of the following federal regulations: |
| 10 | | • Part 40 – Procedures for transportation workplace drug and alcohol testing |
| 11 | | programs |
| 12 | | • Part 379 – Preservation of records |
| 13 | | • Part 380 – Special training requirements |
| 14 | | • Part 382 – Controlled substances and alcohol use and testing |
| 15 | | • Part 383 – Commercial driver's license standards; requirements and penalties |
| 16 | | • Part 385 – Safety fitness procedures |
| 17 | | • Part 390 – Safety regulations, general |
| 18 | | • Part 391 – Qualification of drivers and longer combination vehicle (LCV) |
| 19 | | driver instructors |
| 20 | | • Part 392 – Driving of Commercial Motor Vehicles |
| 21 | | • Part 393 – Parts and accessories necessary for safe operation |
| 22 | | • Part 395 – Hours of service of drivers |
| 23 | | • Part 396 – Inspection, repair, and maintenance |

| 1 | | • Part 397 – Transportation of hazardous materials, driving and parking rules |
|----|----|---|
| 2 | | Because my staff does not inspect non-owned vehicles or the records of non- |
| 3 | | employed drivers, I cannot assure that the non-owned vehicles and non-employed |
| 4 | | drivers used by Shuttle Express meet the Commission's safety requirements for auto |
| 5 | | transportation companies. Because it is my job to protect the traveling public, I am |
| 6 | | not willing to give Shuttle Express the benefit of the doubt. |
| 7 | | |
| 8 | Q. | Mr. Wood claims that you "acknowledge[d] that the limousine drivers used by |
| 9 | | Shuttle Express are 'licensed by the Department of Licensing.'" Exh. No. DJW- |
| 10 | | 3T at 21:12. Please review your initial testimony. Did you actually |
| 11 | | "acknowledge" this fact? |
| 12 | A. | Mr. Wood misquotes me. I actually said, "I have heard that Shuttle Express |
| 13 | | primarily relies on limousine drivers who are licensed by the Department of |
| 14 | | Licensing (DOL)." Exh. No. DP-1T at 6:14-15. I also testified that, due to Shuttle |
| 15 | | Express's reluctance to provide information about its independent contractor |
| 16 | | program, I "know very little about the drivers and the vehicles they operate." Id. at |
| 17 | | 6:15-16. |
| 18 | | |
| 19 | Q. | Mr. Wood criticizes your initial testimony for providing no "examples of |
| 20 | | specific customer safety issues that have arisen with Shuttle Express' upgraded |
| 21 | | passengers." Exh. No. DJW-3T at 21:10-11. How do you respond? |

REBUTTAL TESTIMONY OF DAVID PRATT Dockets TC-143691, TC-160516, TC-161257 (consolidated)

| 1 | A. | First, I question Mr. Wood's expertise to weigh in on these issues. I have reviewed |
|--|----|---|
| 2 | | Mr. Wood's CV (Exh. No. DJW-2) and understand that his training is in economics. |
| 3 | | It does not appear he has any training or experience in transportation safety. |
| 4 | | More importantly, I strongly disagree with Mr. Wood's suggestion that the |
| 5 | | Commission should infer from the absence of "specific customer safety issues" that |
| 6 | | Shuttle Express's independent contractor program is safe. Safety is established |
| 7 | | through vehicle inspections and records audits. My Staff does not inspect Shuttle |
| 8 | | Express's non-owned vehicles or the records of non-employed drivers. Therefore, I |
| 9 | | have no basis on which to conclude that the program is safe. |
| 10 | | |
| 11 | Q. | Mr. Wood lastly criticizes your initial testimony for providing "no evidence for |
| | | |
| 12 | | a conclusion that the Department of Licensing does not adequately ensure the |
| 12 13 | | a conclusion that the Department of Licensing does not adequately ensure the safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism |
| | | |
| 13 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism |
| 13 14 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? |
| 13 14 15 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid?No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle |
| 13 14 15 16 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle Express's non-owned vehicles and non-employed drivers <i>are</i> safe. Instead, he |
| 13 14 15 16 17 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle Express's non-owned vehicles and non-employed drivers <i>are</i> safe. Instead, he attempts to cast doubt on my testimony by suggesting I prove a negative: He wants |
| 13 14 15 16 17 18 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle Express's non-owned vehicles and non-employed drivers <i>are</i> safe. Instead, he attempts to cast doubt on my testimony by suggesting I prove a negative: He wants me to prove that those vehicles and drivers are <i>not</i> safe. I have three responses. |
| 13 14 15 16 17 18 19 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle Express's non-owned vehicles and non-employed drivers <i>are</i> safe. Instead, he attempts to cast doubt on my testimony by suggesting I prove a negative: He wants me to prove that those vehicles and drivers are <i>not</i> safe. I have three responses. First, the issue is ultimately a red herring. The violations alleged by Staff |
| 13 14 15 16 17 18 19 20 | A. | safety of limousine passengers." Exh. No. DJW-3T at 21:12-14. Is this criticism valid? No. Notice that Mr. Wood offers no evidence of his own to show that Shuttle Express's non-owned vehicles and non-employed drivers <i>are</i> safe. Instead, he attempts to cast doubt on my testimony by suggesting I prove a negative: He wants me to prove that those vehicles and drivers are <i>not</i> safe. I have three responses. First, the issue is ultimately a red herring. The violations alleged by Staff exist even if the Commission assumes that DOL-licensed limos are just as safe as |

REBUTTAL TESTIMONY OF DAVID PRATT Dockets TC-143691, TC-160516, TC-161257 (consolidated) Exhibit No. DP-6T Page 9

| 1 | | Second, there is no question that DOL's limo rules are less stringent than the |
|----|----|--|
| 2 | | Commission's auto transportation rules. For example, limousine operators are not |
| 3 | | required to track their hours of service or to conduct daily driver vehicle inspections, |
| 4 | | both of which are important to ensuring safety. |
| 5 | | And finally, as mentioned earlier in my testimony, Staff has no specific |
| 6 | | knowledge or information about the non-owned vehicles and non-employed drivers |
| 7 | | being used by Shuttle Express. The company provided no evidence proving that it |
| 8 | | relies on DOL-regulated limousine companies. It has only made statements that it is |
| 9 | | doing so. When I requested information about the contractual arrangements between |
| 10 | | the company and its contractors, and the names of those operators, Shuttle Express |
| 11 | | declined to provide either, claiming the information would compromise its |
| 12 | | relationships with those independent contractors and reveal contractual information |
| 13 | | the company prefers to keep private. |
| 14 | | |
| 15 | Q. | What do you make of Mr. Marks' "airline ticket" analogy? WAM-2T at 34:8- |
| 16 | | 17. Is the switch from a regulated shared ride van to a non-owned vehicle |
| 17 | | operated by a non-employed driver really analogous to a complimentary |
| 18 | | upgrade from "coach" to "first class?" |
| 19 | A. | What Mr. Marks neglects to mention is that the "coach" class in his analogy |
| 20 | | (i.e., regulated auto transportation service) is subject to the robust safety and |
| 21 | | consumer protection rules in WAC 480-30, whereas the "first-class" ticket |
| 22 | | (i.e., transportation provided by a non-owned vehicle and non-employed driver) is |
| 23 | | not. So, the analogy quickly breaks down when you consider factors other than the |

REBUTTAL TESTIMONY OF DAVID PRATT Dockets TC-143691, TC-160516, TC-161257 (consolidated)

customer's assumed preference for a luxury vehicle. The Commission should not equate luxury with safety.

3

1

2

4 Q. How do you recommend that the Commission proceed?

5 A. As I stated in my initial testimony, the Commission should find that Shuttle Express committed 35,351 violations of WAC 480-30-213. Companies that offer both 6 7 regulated and unregulated transportation services must keep those services distinct. They cannot switch customers back and forth between regulated and unregulated 8 9 services at their whim, especially when the decision is driven by profit motives. 10 I also continue to recommend that the Commission impose a substantial 11 monetary penalty. The testimonies of Mr. Kajanoff and Mr. Marks show that Shuttle 12 Express's use of non-owned vehicles and non-employed drivers is primarily driven 13 by economic factors. In other words, Shuttle Express chooses to violate commission 14 rules when it is economically advantageous. I believe the company will continue to 15 show disdain for the Commission's rules until the monetary penalty is large enough 16 to make the practice uneconomic.

17

18 **Q.** Does this conclude your testimony?

19 A. Yes.
