DOCKET UE-210795  
2022 PSE CEIP  
WITNESS: KARA K. DURBIN**

**BEFORE THE  
WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of  
PUGET SOUND ENERGY, INC.  
2021 Clean Energy Implementation Plan

**Docket UE-210795**

**EXHIBIT TO THE CROSS-EXAMINATION OF  
KARA K. DURBIN  
ON BEHALF OF NW ENERGY COALITION AND FRONT AND CENTERED**

**JANUARY 24, 2023**

**BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

**Docket UE-210795  
Puget Sound Energy  
PSE 2021 Clean Energy Implementation Plan**

**FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 171:**

Please provide all documents regarding how CBIs are linked to programs/specific actions outlined in the CEIP Chapter 4, and if there is a similar analysis that provides CBI scoring by program/specific action as shown in Appendix D-3.

**Response:**

Please see Puget Sound Energy's ("PSE") Clean Energy Implementation Plan ("CEIP"), primarily Chapters 2 through 4, and attachments, for an explanation of how customer benefit indicators ("CBIs") are generally linked to programs or specific actions. There is no additional documentation regarding how such CBIs are linked to specific actions other than the information provided in the CEIP and its attachments. Specifically, please see Appendix L of the CEIP.

In order to design equitable and accessible distributed energy resource ("DER") products and programs, PSE intends to involve PSE's highly impacted communities, vulnerable populations and the community-based organizations, government agencies, and tribal entities that serve them throughout the development process. PSE's approach to community engagement is structured to seek input from a diverse set of customers to understand what types of products or programs PSE's communities would find most beneficial, what barriers exist when accessing these products or programs, and how PSE can best design solutions to alleviate those barriers and maximize the benefits customers feel are most important.
