BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**Docket UE-210795
Puget Sound Energy
PSE 2021 Clean Energy Implementation Plan**

FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 172:

Please provide all documents, including proposals under consideration, reflecting PSE's plans for short-term and long-term customer participation in DR/DER programs for both customers in general and HIC/VP customers in particular. Please include any documents related to customer outreach/targeting, enrollment, engagement, co-adoption/deployment, and program lifecycle.

Response:

Puget Sound Energy ("PSE") does not possess such documents at this time. PSE is continuing to evaluate the proposals that it received in response to its distributed energy resources ("DER") request for proposal ("RFP") as it considers its future plans for demand response ("DR") and DER programs. Please see PSE's DER RFP: Proposal Summary Report dated April 19, 2022 and submitted in WUTC Docket UE-210878.

PSE's approach to community engagement for these programs will be structured to seek input from a diverse set of customers to understand what types of products or programs PSE's communities would find most beneficial, what barriers exist when accessing these products or programs, and how PSE can best design its solutions to alleviate those barriers and maximize the benefits customers feel are most important. Please see PSE's Response to Front and Center and NWECC Data Request No. 158 for further details on this plan.
