SECTION 34 OF PACIFICORP'S OPEN ACCESS TRANSMISSION TARIFF

October 10, 2014

III. NETWORK INTEGRATION TRANSMISSION SERVICE

34 Rates and Charges

The Network Customer shall pay the Transmission Provider for any Direct Assignment Facilities, Ancillary Services, state specific Retail Access charges as described in Attachment M and applicable study costs, consistent with Commission policy, along with the following:

34.1 Monthly Demand Charge: Charges for Network Integration Transmission Service shall be calculated annually using the ATRR. The Network Customer shall pay a Monthly Demand Charge, which shall be determined by multiplying its Monthly Network Load by the Transmission Provider's monthly transmission rate as established in Attachment H-1.

34.2 Determination of Network Customer's Monthly Network Load: The Network Customer's Monthly Network Load is its hourly load (including losses and its designated Network Load not physically interconnected with the Transmission Provider under Section 31.3) coincident with the Transmission Provider's Monthly Transmission System Peak (including losses).

34.3 Redispatch Charge: The Network Customer shall pay its portion of any redispatch costs allocated between the Network Customer and the Transmission Provider pursuant to Section 33. To the extent that the Transmission Provider incurs an obligation to the Network Customer for redispatch costs in accordance with Section 33, such amounts shall be credited against the Network Customer's bill for the applicable month.

34.4 Stranded Cost Recovery: The Transmission Provider may seek to recover stranded costs from the Network Customer pursuant to this Tariff in accordance with the terms, conditions and procedures set forth in FERC Order No. 888. However, the Transmission Provider must separately file any proposal to recover stranded costs under Section 205 of the Federal Power Act.
