~~DE [unclear]~~

I like to breathe fresh  
air, drink clean water.  
~~Support~~ People and  
corporations who want  
to continue using  
fossil fuels are harming  
all life and Our  
Mother Earth.

The mining, fracking,  
transportation, refining etc  
all contribute to a  
lower quality of life.

~~ON~~ GLOBAL LEVEL

I care about anything  
that has to do with  
the continuation of  
coal, the mining of it  
crude oil, the fracking  
transportation and  
refining of it.

The cost to people and  
planet ~~that these~~  
~~of the continuation of~~  
these actions.

I've been involved in  
writing <sup>STATEMENTS</sup> ~~papers~~, protests,  
non-violent civil  
disobedience, marches,  
vigils, ~~to~~ EIS Hearings,  
and continue to do so  
to bring attention to  
if not stopping the  
poisoning of not only  
people but our mother  
who gives us life,  
to HOPEFULLY urge

people and corporations  
to look ~~for~~ ~~just as~~  
~~bad~~ to investing  
in greener and  
cleaner resources.  
Solar - Wind.

AS FOR NATURAL GAS  
I'm ALSO OPPOSED TO  
USING THAT AS A MAJOR  
RESOURCE, OR AT ALL.

THERE'S ENOUGH POLLUTION,  
PARTICULATES AND LOW  
QUALITY AIR AS IT IS

TO ~~GO~~ FROM COAL AND

USE NATURAL GAS AS A

MAIN SOURCE OF POWER

WITH CONTINUE ~~DEP~~ TO

MAKE OUR AIR QUALITY

HORRENDOUS, WITH THE

METHANE NATURAL GAS

RELEASES. ~~IT~~

OUR QUALITY OF LIFE, AND

ALL LIVES ARE SUFFERING

AS IT IS.

I'M VERY MUCH WOULD

APPRECIATE AVISTA

TO MAXIMIZE STUDYING

~~GOING ALL THE INFO~~

~~INVESTING IN SOLAR & WIND~~

AND MOVING INTO

CLEANER, GREENER

RESOURCES

I'm asking AVISTA to  
move quicker in highly  
reducing, ~~part~~ to completely  
stopping, the use of  
fossil fuels.

GO GREEN  
GO CLEAN

GO SOLAR & WIND

— thank you
