The Honorable Lawrence J. Berg

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

**RE: REVIEW OF UNBUNDLED LOOP AND SWITCHING RATES AND
DEAVERAGED ZONE RATE STRUCTURE
WUTC DOCKET NO. UT-023003**

Dear Judge Berg:

This letter responds to your request for clarification from the parties concerning the specific rate elements to be addressed in this docket. TRACER concurs with the list of rate elements submitted by WorldCom. In addition, to ensure consistency and compatibility of rates, the Commission should reexamine the rate elements listed in SGAT Section 9.3, Subloop and SGAT Section 9.7, Unbundled Dark Fiber (UDF).

Should you have any questions regarding the foregoing, please feel free to contact me.

Very truly yours,

ATER WYNNE LLP
