2. WAC 480-123-130(1)(b) - Use of Support

The funds received by the Company from the universal communications services program in calendar year 2016 represent monies that the Company formerly received through the Washington Exchange Carrier Association (WECA) pooling process and the reduction of support under the Federal Communications Commission's (FCC's) Connect America Fund InterCarrier Compensation Fund (CAF ICC) program. As such, the funds from the universal communications services program contributed to defrayal of the ongoing operation and maintenance expenses of the Company. The funds from the universal communication services program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers residing in the area the Company serves.

In December 2016, the Company received \$62,787 from the universal communications services program for the fiscal year ending June 30, 2017.

During the first six months of 2017, the Company undertook no major projects. The funds received from the universal communications services program can be viewed as contributing to the repayment of loan funds it borrowed to fund its fiber-to-the-home project in previous years. In the second half of 2017 the Company plans to purchase computer equipment and continue to use funds for repayment of loan noted previously.
