**Re: Dockets UE-210822 and UG-210823  
Updated 2022-2023 Biennial Report of Conservation Accomplishments**

Dear Executive Director Killip,

On May 31, 2024, Puget Sound Energy filed its 2022-2023 Biennial Report of Conservation Accomplishments (Report) in the above-referenced dockets. An error was identified in the Report that misrepresented the actual Total Natural Gas Conservation Savings for the two-year period. This updated filing is being made to correct "Table 0-2 2022-2023 Natural Gas Portfolio Conservation Results" which reported the actual total conservation savings as 9,126,934 therms at 93.2% of target, missing the target by 664,393 therms. The updated version indicates an actual total conservation savings of 9,327,416 therms at 95.3% of target, missing the target by 463,911 therms.

The inaccuracy is due to a missed adjustment to reflect the final Home Energy Reports evaluation which increased therm savings by 200,482 from the draft filing. All other necessary Home Energy Report adjustments to the filing package were made in the original filing.
