Re: Initial order TG151573 and TG143802

Dear Mr King

Please consider this to be on behalf of Sound Disposal, Inc., which as you know holds Solid Waste authority in Snohomish County pursuant to certificate G82. We have just received the initial order in TG151573 and must admit to mixed emotions at best. First, I am impressed by the staff investigation and presentation. There obviously was a great deal of effort involved, which resulted in a clear case of another series of violations by Wolford Trucking. Staffs' recommendations were fair and justified under the circumstances, particularly considering that this is the second complaint in about a year, both very serious.

Despite all this the Judge chose, for some reason, to ignore staff and impose a much smaller penalty than is justified, and suspend it for two years. It is beyond me how a repeat offender, still on probation on an earlier matter can escape any meaningful punishment after admitting to some 170 illegal hauls.

I understand that staff can seek review of this order by the full commission. I strongly urge you to do so. Wolford has virtually made a career out of flaunting the law and commission rules, and continues to get away with it. There is no excuse for letting him do so again.

Respectfully submitted

Evelyn Nicholson, Pres
