DOCKET UE-210795  
2022 PSE CEIP  
WITNESS: KARA K. DURBIN**

**BEFORE THE  
WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of  
PUGET SOUND ENERGY, INC.  
2021 Clean Energy Implementation Plan

**Docket UE-210795**

**EXHIBIT TO THE CROSS-EXAMINATION OF  
KARA K. DURBIN  
ON BEHALF OF NW ENERGY COALITION AND FRONT AND CENTERED**

**JANUARY 24, 2023**

**BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

**Docket UE-210795  
Puget Sound Energy  
PSE 2021 Clean Energy Implementation Plan**

**FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 050:**

**DATA REQUESTS DIRECTED TO: Kara Durbin**

**Re: Equity Data**

For each community that appears on more than one of the lists in the data request immediately above, provide:

- a. The percentage of households with high energy burdens;
- b. The percentage of households which are identified as falling within each specific identified vulnerable population.

**Response:**

Puget Sound Energy (“PSE”) can provide data for a) percentage of households with high energy burden for census block groups that qualify as more than one of either: high needs communities, highly impacted communities, targeted demand-side management (“TDSM”) communities, and underserved communities. Please see PSE’s Response to Front and Centered and NW Energy Coalition’s Data Request No. 049 for data references and background on data sources (or lack thereof) for community categories listed as subparts a-f.

Please refer to Attachment A to PSE’s Response to Front and Centered and NW Energy Coalition Data Request No. 050 (“Attachment A”), a spreadsheet that gives PSE’s estimate of the percentage of households with high energy burden (defined to be > 6%), within each census block group that qualifies for more than one of: high needs community, highly impacted community, TDSM community, and an underserved community.

PSE delineates vulnerable populations using a vulnerability label of high, medium, or low at the census block group level in its Clean Energy Implementation Plan. Therefore, in response to b), Attachment A indicates whether each census block group has a vulnerability label of high, medium, or low.
