Comments

I'm a physician (board certified in Internal medicine. I beat prostate cancer a few years ago, and have had issues related to my health from electromagnetic radiation. I take measure in my house top avoid EMF, use grounding pad, paid \$10000 to retire my house to get rid of old knob and tube EMF wiring and teach about EMF as a practitioner. Smart Meters are a MAJOR concern with their pulsed EMF at high levels and yes high enough to create DNA damage in my and everyone else bodies. I'm dealing with heavy metal toxicity and EMF compound this situation .

Each person will be subject to be held commercially liable, AS INDIVIDUALS for any and all smart meter installations including my direct neighbors which will also affect my health (and theirs).
