Mr. Henrickson, I'll forward this email to the records center and place it in the docket. When Judge Kopta issues an order, it will contain instructions about how to file an appeal. I am not the appropriate person to contact while this matter is still pending. Please follow the instructions at the end of the order once it is served and you have received it. Thank you.

I assumed you were being cc'd in these messages. This might help clarify things. The attny cc'd you everything in the past.

What you needed to know is that I was injured in February and was in extreme pain. I also had a surgery scheduled for my eye a few days before you calling. During surgery I was placed under anesthesia. I was in a deep fog for weeks and had many family members concerned. After surgery I was provided pain killers. I should have not been unprepared and would not have if what I believed that you were included. Another thing I don't understand is why I have received 1000 pages of redacted paperwork with no evidence and a promise for more documentation. Except the newer documentation came in multiple different extensions that I did not have on my computer.

In regards to the testimony I heard appeared to even more lies and games. All I heard was that I was accused of saying "I don't have to!" This was referring to contact with UTC. This more sounds like she words of a four year old. I've worked around the world and signed many multi million dollar contracts. These are not the words I would say. These are the words more that go with my testimony that I argued with her about her education and intelligence. This led to harassments which led to threats of police and much more. Phone calls and hang ups such as "Is your refrigerator running then why don't you go catch it? I've never been so harassed. For them to create thousands of documents stands by itself and I believe upset other individuals further that create more havoc through law.

This is why I believe we will be continuing our argument in Superior court.

I haven't even read the thousand pages they sent, cause it was mostly redacted and was waiting for the remaining documents and recordings. I believe they also lied to the last Judge about addresses and serving and this also would have proved my case about their well being. This led to a Judge speaking down to me and making decisions based on their previous testimony and me being yelled at. I wanted to show this evidence badly, because this is an attack that is unwarranted.

Dear Mr. Henrickson,

Are you still planning on requesting a continuance from Judge Kopta? If so, we should probably work out a hearing date before you email him or file a motion. I've spoken with the records center, and Ryan believes he will finish production on your public records request by next Friday. That should mean that a hearing in mid-March will work, and Staff will not object to a continuance along those lines. So, having said that, is there a day that works best for you?

Sincerely,

Jeff

I am requesting an extension. As I mentioned before there would not be enough time for records. Records has sent me files with unrecognized extensions. In addition I have not received any recordings. I am working with records so that they can supply the correct files. Unfortunately most docs were sent correctly in the beginning. The last records have been hurried.

Paul
