Notes:

- Energy amounts by period provided by TransAlta-CTCF and reviewed by PSE.
- "Bookouts" are not included in Column "E" totals as they net out to Zero unless otherwise noted.
- All NERC E-Tag sources shown in column "G" are individual discrete sources. Each month is totaled in Column E.
- Exception NOTE, Row 86, Column E, July - : The Schedulers bookout TEMU deal (184) was against another counterparty deal in the Day Ahead scheduling process so we were still obligated for the whole amount with TEMU although we didn't physically receive the energy.
