Subject: RE: SpeediShuttle Seattle Announces Where's My Vehicle

Does it work in Hawaii? I could always let her know if it does and tell we aren't making a general announcement but it is there if she's interested.

Thank you,

Jack Roemer

Subject: SpeediShuttle Seattle Announces Where's My Vehicle

Hello Marie,

Although it is not available for current bookings made through Go Airport Shuttle, I wanted you to know about this because we do want your business. SpeediShuttle Seattle is excited to announce implementation of new technology for your guests. The technology is called "Where's My Vehicle?" and will enhance the guest's experience by providing them with real-time information on their vehicle and driver automatically. The service is free to you and your customer and is provided automatically if you provide us either a valid U.S. cell phone number or a valid email address.

If we have a U.S. mobile phone number for the guest, they will receive an SMS (text) text message thirty minutes prior to their scheduled departure pickup. If we do not have a valid telephone number but have an email address, the guest will receive an email. Either will include a customized web link as shown below. Clicking on the web link will open a map that tracks the vehicle's progress and displays the driver's name and vehicle description as shown below.

We believe that Where's My Vehicle? is a valuable addition to our services that your guests will appreciate. To use this feature, there is nothing you need to do except provide us with a valid U.S. cell phone number or valid email address. If you have any questions, comments or concerns, please let us know.

Thank you!

Jack Roemer
