**Re- TR-070696 HICKOX ROAD HIGHWAY -RAIL CROSSING**

MAY 31 2007

**WHY? WHY TWO SETS OF RAILS?**

WASH. UT. & TP. COMM

**HIGHER FUEL COSTS YES THAT'S RIGHT OUR LOCAL REFINERIES ARE STOCKPILING FUEL IN RAIL CARS- ON THESE SECONDARY LINES -WE REALLY CAN'T DO ANYTHING ABOUT STOCKPILING FUEL IN RAIL CARS. THE REFINERIES HAVE LONG PRACTICED INVENTORY CONTROL. BNSF JUST WANTS MORE RENIVUE OK TOO.**

**RECEIVED**

**I'TS ALSO SO CONFIDENTIAL THAT UTILITIES AND TRANSPORTATION HAS NO RIGHT OR CONTROL OVER THE SITUATION.**

**Let them have their line just don't take our emergency services or response times away! We already experienced moving our fire hall from Anderson Exit and old hwy 99 So to its present location directly across from this intersection on Hickox road. We are also in the flood plane and this evacuation route will be closed? Traffic diverted and response time slower!**

**Share but don't take away our crossing!**
