Due to its historic and ongoing work with utility companies and others to achieve these goals, the Coalition possesses unique interest in the outcome of this proceeding.

D. The Coalition has a special interest in this proceeding for the following reasons: (1) Coalition members will be directly affected by changes in utility management, service and policies that may result from the proposed merger; and (2) the proposed merger commitments may impact PSE’s investments in energy efficiency, renewable energy resources and low-income energy services and PSE’s policies regarding greenhouse gas emissions. The Coalition intends to examine various issues in this proceeding, with a particular interest in commitments to clean energy and low-income energy services.

E. The Coalition offers this process considerable expertise in the area of resource planning, industry structure, and economic and policy analysis. The Coalition has participated in numerous rate cases, mergers, and resource planning proceedings in Washington, Oregon, Idaho, and Montana.

F. The Coalition has no intention of unreasonably broadening the issues, burdening the record or delaying the proceeding through its intervention.

For the foregoing reasons, the Coalition requests the Commission grant its motion to intervene in this matter.
