RE: Rubatino Refuse Removal, Inc. G-58  
Docket #: TG141091, additional information  
Capital Structure Improvement Plan

Dear UTC Commissioners:

We wish to provide additional information as a follow up to our letter dated November 7, 2014.

Specifically in regards to increasing our equity to attain a sixty percent (60%) debt and forty percent (40%) equity ratio, an investment of approximately of \$750,000 will be required.

Our recent rate case does not provide any equity even if no distributions are made.

We will call together the stockholders in the next two weeks if all are available. In any case a meeting will be before January 20th, 2015.

We will give stockholders the first opportunity to invest additional equity investment in the company. Our management expectation that this will provide the an additional \$750,000. I anticipate an early decision.

RECYCLE PAPER

I assure you that we will have a 60-40 ratio by the end of 2015 and possibly early 2016.

Because it is the only way to survive.

If you have further questions, please contact me.

Sincerely,

Ed C. Rubatino
