---

Mr. Henrickson,

Commission rules do not permit a party to an adjudication to contact the presiding administrative law judge directly outside the presence of the other parties except for limited procedural purposes. The email below includes a substantive discussion of your position in this case and thus is not allowed. I am copying the Commission's Records Center on my response to you and request that they include this thread in the docket. I am also copying Mr. Roberson so that he may respond if Staff chooses to do so. Please do not contact me directly again about this matter.

**Gregory J. Kopta**  
Administrative Law Judge  
(360) 664-1355

### **Utilities and Transportation Commission**

Respect. Professionalism. Integrity. Accountability.

External Email

I assumed you were being cc'd in these messages. This email might help clarify things. The attny cc'd you everything in the past.

What you needed to know is that I was injured in February and was in extreme pain. I also had a surgery scheduled for my eye a few days before you calling. During surgery I was placed under anesthesia. I was in a deep fog for weeks and had many family members concerned. After surgery I was provided pain killers. I should have had to do a hearing and would not have if you were included. Another thing I don't understand is why I have received 1000 pages of redacted paperwork with no evidence and a promise for more documentation. Except the newer documentation came in different extensions that I do not have on my computer.

In regards to the testimony I heard appeared to even be more lies and games. All I heard was that I was accused of saying "I don't have to!" This was referring to contact with UTC. The testimony sounded like the words of a four year old. I do not speak that way. I've worked around the world and signed many multi million dollar contracts. These are words I would not say. These words go with my testimony that I

argued about her background and intelligence. This led to harassments, threats of police, phone calls and hang ups such as "Is your refrigerator running then why don't you go catch it? I've never been so harassed. For them to create thousands of documents stands by itself and I believe upset other individuals have further created more havoc through law.

This is why I believe we will be continuing our argument in Superior court.

I haven't even read the thousand pages they sent, cause it was mostly redacted and was waiting for the remaining documents and recordings. I believe they also lied to the last Judge about addresses and serving. This could have helped my case about their well being. From the lies and manipulation led to a original Judge speaking down to me (bias) and making decisions based on their previous testimony. I wanted to show this evidence badly, because this is an attack that is unwarranted.

Dear Mr. Henrickson,

Are you still planning on requesting a continuance from Judge Kopta? If so, we should probably work out a hearing date before you email him or file a motion. I've spoken with the records center, and Ryan believes he will finish production on your public records request by next Friday. That should mean that a hearing in mid-March will work, and Staff will not object to a continuance along those lines. So, having said that, is there a day that works best for you?

Sincerely,

Jeff

External Email

I am requesting an extension. As I mentioned before there would not be enough time for records. Records has sent me files with unrecognized extensions. In addition I have not received any recordings. I am working with records so that they can supply the correct files. Unfortunately most docs were sent correctly in the beginning. The last records have been hurried.

Paul

RE: PUBLIC RECORDS REQUEST of November 10, 2020, Reference # R000275-111020

Paul Henrickson:

On November 10, 2020, you submitted a request for public records to the commission, in which you requested:

**"Re: Docket No. TG-190793**

**This is a request for any and all documents, recordings and pertinent information pertaining to Paul Henrickson."**

The *fourth* installment of records responsive to your request is available to you now in the WA Utilities and Transportation Commission Public Records Center. Click the link below to login to the Public Records Center and retrieve the records.

[Public Records Request - R000275-111020](#)

We estimate the next installment to this request will be available on or before 2/12/2021. If public records become available in advance of this estimate we will contact you promptly. Conversely, if we encounter a need to extend our estimate, we will contact you promptly with a revised estimated date.

Please note, I am hopeful that the e-mails I will provide to you on the 12th will be the last of the non-redacted communications. If timing works, I will have the communications requiring redaction as well. I will be out all of next week, so questions concerning your request will need to wait until I return on February 8th. I will maintain providing emails in individual .msg format. .msg formatted emails are able to be opened in Microsoft Outlook and a variety of other email client programs.

If you have any questions or need additional information, please reply or contact my office at +1 (360) 664-1165.

Thank you for your patience in awaiting this information.

Ryan Smith  
Forms and Records Analyst Supervisor  
Records Management
