PC- 61 Re: Pro Forma Plant Additions.

Refer to Michael Parvinen, Exhibit MPP-6, page 6, note 34. The note indicates, in part, that “[c]ompletion of the first phase of this project is dependent on receiving permitting to allow for completion of phase 1 by the end of 2017.”

- a. When were the required permits received?
- b. Will the timing of the receipt of the permits allow for completion of the project by the end of 2017?

Response:

- a. Permits for one of the phases have been submitted and we are still awaiting approval of the permits. Permits for the second phase of this project have not been submitted.
- b. This project will not be completed in 2017 and is scheduled to be completed in 2018.
