Re: Washington Utilities and Transportation Commission v. Olympic Pipe Line Company, Inc., Docket No. TO-011472

Commission Staff has asked that the status of Olympic's audit report be clarified before the filing of briefs. The Commission has not ruled on whether it will be admitted or not. If the Commission rules that the document should be received in evidence, parties will be notified and will be afforded the opportunity to address the issues that they believe would be affected.

PLEASE NOTE: WHEN FILING YOUR BRIEFS TODAY, no provision has been requested or made for filing by fax. Please **do not** send these documents to the Commission via telefacsimile. Multiple large filings will cause congestion in the fax streams and may prevent urgent matters from reaching the Commission.

Because of the anticipated length of the filings, your hard copy filings (including a diskette with the filing in digital form) plus an e-mail courtesy copy to the bench and the records center, will be amply sufficient.

Thank you,

Sincerely,

C. ROBERT WALLIS
Administrative Law Judge
