Description	As 15 year property owners of the Rosario community on Orcas Island we are opposed to the outrageous request for rate increases by Rosario Utilities, LLC. Based on our current rates, the proposed increases would be a 62 per cent overall increase which would be a definite hardship for us and others who must use the service. The Rosario rates are already much more expensive than any other water system on Orcas Island. The proposed increases have become known at such a late date that there has not been time to look at alternatives. We are wondering why this utility system needs so much more money. Are they not running the business efficiently? To make a hasty decision on the proposed increases without a thorough study would be highly irresponsible. Thank you for your attention to our concerns. Erv and Norma Jo Harlacher
