Bill Parker

Re: Proposed Sale of Puget Sound Energy

Dear Mr. Parker:

The Governor's Office asked me to respond to your inquiry regarding the regarding the proposed sale of Puget Sound Energy (PSE). As you observe, the utility announced its proposal to be acquired by an investment group on October 26, 2007.

State law requires that this transaction will require approval from the Washington Utilities and Transportation Commission (UTC). The UTC will review the proposal and hold a hearing to provide an opportunity for members of the public to express their opinions concerning the proposed sale. PSE has yet to file a formal request for the necessary approvals, so a hearing date has not yet been set. The UTC will add your name to the list of interested persons so that you will receive notification of the hearing date, time and location.

Thank you again for your inquiry and for your interest in the electric utilities that serve customers in Washington.

Sincerely,

David W. Danner
Executive Director

Moen, Nancy (UTC)

Comments:

Issue: Puget Sound Energy

I learned that Puget Sound Energy is being sold to a financial group. Please make sure this important utility is not being sold to foreign investors. Please respond.
