David,

PG-100018 is scheduled for response on September 20, 2010  
PG-100043 is scheduled for response by September 30, 2010

We are currently being inspected in the Yakima/Sunnyside area, which limits our ability to get started on those responses. Working on both responses simultaneously also limits our ability to complete both on the days specified.

We request a 30 day extension of to respond to both:  
PG-100018 would be due by October 20, 2010  
PG-100043 would be due by October 29, 2010

Thanks for your consideration,
