Regarding:  Branch Request for NXX

Dear Jeff,

 located at  Spokane Washington, is expanding its existing campus through construction of additional facilities this year and upcoming years. As a result of this 10-year growth plan and long range planning,  will require additional telephone numbers for the campus. Several times in the past,   has requested blocks of telephone numbers but has only been able to receive limited non continuous telephone numbers. The limited number of telephone numbers has made it very difficult to manage today's telecommunication needs and will not be able to meet the needs of the near future.

As part of the  expansion beginning this spring/summer 2010, we will need to acquire new telephone numbers to support the existing telephone number needs for  along with the telephone number availability to support the following projects:

Pending  budgetary approval,  will be opening a new  building and will require 1,500 new telephone numbers in 2013/14. This building will likely include a  supported  and the relocation of 

 are jointly exploring the need for on or near  housing. This will require the addition of approximately 2,000 new telephone numbers in 2014/15.

There are negotiations in progress that involve a  for  science related companies within the  that would require another 500-1000 telephone numbers.

Today, we have 1,400 DID telephone numbers into our  and we have exhausted the telephone numbers. This summer, on July 1, 2010, we will need an additional 1,500 new telephone numbers to support the deployment of our new VoIP telephone system.  needs to acquire a total of approximately 6,500 new telephone numbers to support our current demands and to support our fast approaching expansion projects.

ATTACHMENT A

[REDACTED] needs the new telephone number range to be in the 2XXX to the 8XXX range to be able to incorporate with our dialing plan.

REDACTED

[REDACTED] cannot use blocks that begin with 0, 1, or 9 because of our coordinated dialing plan.

I look forward to working with Qwest on this transition. If you have any questions, please let me know.

Sincerely,

[REDACTED]
