Ref. No. Docket PG-101602

December 8, 2010

Carol VanRy
Rader Farms, Inc. Cabins
8974 Line Rd
Lynden, WA 98264

Dear Ms. VanRy:

RE: 2010 Master Meter Inspection – Rader Farms, Inc. Cabins

On November 22, 2010, the Washington Utilities and Transportation Commission's (commission) pipeline safety staff discussed the natural gas master meter (MM) system located at the Rader Farms, Inc. Cabins, in Lynden, Washington.

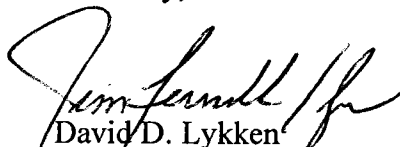

During this discussion, you indicated that you no longer wanted to operate a MM system and followed up the discussion with an email from Cascade Natural Gas confirming that the MM system will be eliminated.

We understand that it may be several months before the actual conversion occurs because of weather conditions. Please notify the commission when the MM system is eliminated. We will conduct a follow-up inspection to confirm the completion of the proposed work.

Docket PG-101602 will be closed as of December 8, 2010. Please refer to docket PG-101602 in any future correspondence pertaining to this inspection.

We thank you for your cooperation in this matter. If you have any questions or need further assistance, please contact Patti Johnson at (360) 664-1266.

Sincerely,

David D. Lykken
Pipeline Safety Director
