In the Matter of	)	DOCKET TR-130319
	)	
CITY OF COLLEGE PLACE	)	ORDER 02
	)	
Petition to Modify Warning Devices and Install Sidewalks at a Railroad- Highway Public Grade Crossing at North College Avenue	)	ERRATA ORDER CORRECTING ORDER 01
	)	
USDOT: 810011Y	)	
.....	)	

- 1 On March 5, 2013, the City of College Place (City or Petitioner) filed with the Washington Utilities and Transportation Commission (Commission), a petition seeking approval to modify warning devices and install sidewalks at a railroad-highway grade crossing. The crossing is identified as USDOT 810011Y and is located at the intersection of North College Avenue and Union Pacific Railroad and Palouse River and Coulee City Railroad’s tracks in the city of College Place.
  
- 2 On March 22, 2013, the Commission entered Order 01 – Order Granting Petition to Modify Warning Devices and Install Sidewalks at a Public Highway-Rail Grade Crossing.
  
- 3 The Commission has subsequently become aware of several errors in Order 01. By this order, the Commission corrects these errors as follows:
  
- 4 The project does not create additional vehicle parking along Rose Street. The width of the proposed sidewalk is five feet and the additional flasher proposed to be installed in the southwest quadrant of the crossing will provide warning for northbound pedestrians approaching the crossing. The existing shoulder mounted lights and gates will provide warning for southbound pedestrians.

DATED at Olympia, Washington, and effective April 12, 2013.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

STEVEN V. KING, Acting Executive Director and Secretary
