On July 9, 2015, USCC learned for the first time that the due date for this annual report was recently changed from July 31st to July 1st. USCC did not follow or actively participate in the rulemaking which resulted in the new deadline, as the vast majority of the rule changes proposed were irrelevant to USCC. Moreover, USCC is filing its report within less than a week of learning of this new due date. Additionally, USCC filed its copies of FCC forms 481 and 690 early this year and is otherwise in full compliance with all Federal and state laws and regulations regarding universal service. Accordingly, USCC respectfully requests that its report this year be accepted after the July 1st due date. Acceptance of the late report would be strongly in the public interest.

Pursuant to WAC 480-07-140, we are making this filing electronically only. In the confidential portion of the filing, each electronic file will contain, as part of the file name, the word "CONFIDENTIAL." Additionally, each page in the confidential electronic files will be labeled "Confidential Per WAC 480-07-160." A redacted copy of each confidential exhibit will also be filed.

Pursuant to RCW §80.04.095 enclosures designated as "confidential" contain valuable commercial information, including trade secrets and confidential marketing, cost, or financial information, or customer-specific usage and network configuration and design information. Accordingly, pursuant to RCW §80.04.095 such information should not be subject to inspection or copying under RCW Chapter 42.56. Moreover, the records designated as "confidential" contain valuable formulae, designs, and research data, the disclosure of which would produce private gain and public loss and should be exempt from public disclosure pursuant to RCW 42.56.270(1).
