To the attention of Steven V. King, Executive Director and Secretary,

I am Richard Bell and I am writing in regards to my Notice to Deny Application For permanent Authority to set up a speedy hearing. I was denied because of my criminal history and it says I was convicted for charges that I was not convicted of. I went down to the court house to verify the discrepancy with the charges listed in the Factual allegations. I have four total charges on my record, two felony charges and two misdemeanors charges which are all seven years or older. I also was misled by the application because it did not ask about assault charges and what I read said that I couldn't have anything on my record in the past five years. I realize that my background could potentially be troubling but my last conviction was over seven years ago and I am married with three kids now and I am not the same person I was at nineteen. I would appreciate reconsideration in my approval because I am not a threat to any one or their belongings and I have saved up for the last few years to make sure I have a great running truck and premium moving blankets, straps and equipment. I have also worked a lot of jobs since my conviction and most of them required loading and unloading possessions in or at people's homes, and I have never had any issues getting along with customers and being patient when someone is upset. I know how to drive, load, and unload trucks taking the proper precautions to not damage anything, and take extra precautions with customer's fragile and sentimental items. If my application is accepted I will treat all customers and possessions with the upmost respect and I will never do anything irrational that could result in losing the permit. I just want a good life for me and my family and to grow as a company.

Thank you,

Richard Bell
