In Docket TR-170388, the Commission approved installation of crossing gates at USDOT 066331W by Order 01, effective May 23, 2017. The Order, in §12(3) states:
Petitioner must notify Commission Staff within 30 days upon completion of this project.

WSDOT did not inform the Commission of completion of the project. However, a review of Commission records shows that Rail Safety staff inspected the both the at-grade and overcrossing on December 17, 2019. Records and photographs confirm that installation of the crossing gates is complete and in compliance with Order 01 in TR-170236.

This matter is now closed.
