Violation: RCW 19.122.030 (2), Digging before allowing the required 2 business days for utility marking.

Summary:

On 02/10/2017 PSE's Damage Prevention Rep, Roger Arrington, arrived found Watterson Excavating doing foundation digs at two addresses in the Meritage Ridge development. Although Watterson had called in locates, 17077708 & 17077705, on 03/21/2017 they were not valid until 03/24/2017 and other locates at those addresses belonged to other contractors. The utilities had not been fully located and Watterson was digging prior to the 2 business days required. He spoke to the onsite employee Cory to let him know that their ticket at these addresses were not valid and they were digging before the locate was due.. Roger also called Ty Watterson who had Brad, Watterson's Operation manager call him back. When Brad called back he admitted that they should not be digging yet.
