Shelley & Jon,

USIC was able to provide me with their Locate Ticket Reports for tickets associated with Complaint Case Numbers 19-049, 19-050 and 19-060. I am attaching them to this email.

Below is David Gallant's summary of USIC's work associated with these three tickets.

19-063 (Snohomish PUD Case 19-050)

Ticket # 18362799 Ticket due 8/24 Marked 8/22 We actually marked on-time but looking at notes it appears we missed a section of these marking instructions. We promptly went out there upon this contractor calling and marked where we needed.

19-064 (Snohomish PUD Case 19-049)

Ticket #18536674

Due 12/25

We originally cleared this on 12/21. Area not marked in white as ticket stated and tech was confused on instructions.

Sent out a tech the same time contractor called us on 12/27 and marked this out with them onsite. Area still not marked in white.

There are notes in this claim that we (USIC) asked the contractor "not to be too hard on locator". This is because this contractor has a history of being verbally abusive to locators and has told our techs how he "can get people fired".

19-065 (Snohomish PUD Case 19-060)

Ticket 19235521

Due 6/8

We originally cleared this on 6/5. Our tech was not sure of the area marked in white as there were faded marks. This pole with utilities running down it are at the farthest point of this work area, and the utilities are not on the print. These utilities also run away from the direction this contractor needed to go. We responded right away.

It appears that these three tickets are the same three tickets that you will be reviewing with Frontier tomorrow.

Please let me know if you have any questions.

Erin Burke Snohomish County PUD (425) 783-4745
