Re: South Sound College Hunks – Penalty Assessment Response

Please Note:

I am in violation of the four violations but requesting the financial penalty be waived due to the following:

1. The driver was medically examined prior to driving and certified. However, it was a temporary certificate due to the possibly the driver may have Sleep Apnea based on his BMI. I should have had him re-examined after 60 days; I overlooked this.
2. Once this was brought to my attention, I immediately stopped this driver from driving and informed him that this will need to be addressed and he will have to pass the DOT physical prior to driving for us again. To date, he has not driven for us.

Thank you for the opportunity to provide additional information. If you have additional questions, please feel free to reach out to me at the number below.
