Rate Increase Notice

November 15, 2025

Dear Valued Customer,

Waste Management is pleased to be your solid waste services collection provider. We value your business and welcome your feedback on our services.

Like all of us, the garbage industry is faced with many challenges today. Rising costs for disposal, labor, fuel, maintenance and other operating and office expenses have resulted in increased costs for us to provide collection services. All of the above-mentioned costs have risen substantially since our last general rate increase nearly seven years ago in December 2018. Accordingly, we have applied for a change in rates, subject to the review and approval of the Washington Utilities and Transportation Commission (UTC). These proposed rates are shown on the back of this notice. If approved, the new rates would become effective January 1, 2026.

The UTC has the authority to set final rates that may be lower or higher from the company's request, depending on the results of its investigation. You can submit a comment to the UTC by using the online comment form at <https://www.utc.wa.gov/comment>, via email at comments@utc.wa.gov, or by using the contact information below to write or call. Please include your name, mailing address, the name of the company (Waste Management), and a description of this filing.
