**BACKGROUND**

1 On March 29, 2013, Puget Sound Energy (PSE or Company), filed with the Washington Utilities and Transportation Commission (Commission) a petition requesting review and approval of its Power Cost Adjustment Mechanism Report – PCA Period 11 (PCA Report). PSE filed the PCA Report consistent with the Commission’s Twelfth Supplemental Order approving a settlement in Dockets UE-011570 and UG-011571, in which the Commission approved a Power Cost Adjustment (PCA) mechanism for PSE.

2 PSE’s PCA mechanism accounts for differences in the Company’s modified actual power costs relative to a power cost baseline and provides for a sharing of power costs between the Company and ratepayers.<sup>1</sup> The Commission authorized a change in the annual PCA period to a calendar year beginning January 2007, and established that the annual PCA true-up filings were due by the end of each March for the prior PCA calendar year.<sup>2</sup>

3 The Period 11 PCA Report covers the calendar year ending December 31, 2012. During 2012, actual power costs were lower than the average baseline power costs by \$25,644,564 (after adjustment for Firm Wholesale). Of this over-recovered amount, PSE’s share was \$22,822,282 and the customers’ share was \$2,822,282. The activity that occurred in PCA Period 11 along with the revisions to the beginning balance made pursuant to the true-up methodology resulted in cumulative customer share, including

interest, of \$2,649,947. The level of this deferral balance does not warrant a rate change. Under the PCA mechanism, surcharges can be triggered when the balance of the deferral account is approximately \$30 million.

4 The Commission Staff has reviewed PSE's PCA Period 11 report and verified that the deferral balance set forth in PSE's PCA Period 11 report is reasonable and in accordance with the PCA settlement and the Commission's Orders in Dockets UE-011570 and UG-011571.

5 No interested party submitted comments or issues related to the report.
