

Exhibit 1 Supplement 4

2017 Significant Counts by Program and Fuel Type

- All figures are intended to provide a perspective of scale and program scope; most are rounded. They aren't intended to be a precise measure count.
- Key counts below may represent either customers, projects, dwellings, or measures reported.
- Since it isn't possible to provide a representation of every measure, selected representative measures are indicated. PSE provides more comprehensive measures counts in the Annual Report program discussions.
- It is important to note that "Dwelling units receiving measures" figures represent homes, apartments, condominiums, mobile homes, etc. that reported "some" energy efficiency measure.
- In some cases "measure count" only represents the measure name, rather than each individual measure installed. For instance, "LED lamp" in Commercial Lighting may represent a single lamp or 100 of the same lamp.

Schedule	Programs	Electric		Gas		Projects with Both Electric & Gas Measures	
		Key Measure Type	Units	Key Measure Type	Units	Key Measure Type	Units
(Excluded from the electric-only or gas-only counts)							
E/G 201	Low Income Weatherization	EE projects receiving at least one electric measure	1,350	EE projects receiving at least one gas measure	120		
E/G 214	Single Family Existing	Number of efficiency measures		(Other Channels also install CFL and LED lamps. Those details are presented in each program discussion.)			
	Residential EE Lighting Rebate	CFL Lamps	77,000				
		LED Fixtures & Retrofits	434,000				
		LED Lamps	3,710,000				
	Space Heat	Heat Pumps	3,810	Furnaces	5,400		
	Water Heat	Heat Pump Water Heaters	600	Fireplaces	830		
	Home Energy Assessments	Homes assessed	11,470				
	Home Appliances	Clothes Washers	6,700	(Although units are indicated in the electric fuel type, some clothes washers yield gas savings as well. Also applicable in PSE's gas-only territories.)			
		Advanced Power Strips	5,300				
		New refrigerators & replacements	11,690				
		New freezers & replacements	1,580				
	Showerheads					Showerheads, shower restrictors, aerators (Shared between electric and natural gas territories)	
	Weatherization (Homes heated with:)	Electricity, receiving an insulation/sealing measure:	570	Natural gas, receiving an insulation/sealing measure:	2,500		
		Electricity, receiving a window measure:	550	Natural gas, receiving a window measure:	1,200		
	Home Energy Reports	Customers receiving reports	16,000	Customers receiving reports	16,000		
E/G 217	Multi Family Existing	Buildings	3,130	Buildings	89	MF Properties receiving both gas and electric measures	79
		Dwelling units receiving electric measures	33,900	Dwelling units receiving gas measures	2,700	Dwelling units receiving both gas and electric measures	2,790
E/G 218	Multi Family New Construction	Dwelling units receiving electric measures	870	Dwelling units receiving gas measures	340	Dwelling units receiving both gas and electric measures	1,640
E/G 250	C/I Retrofit	Projects	60	Projects	40	Projects with electric AND gas	20
	Custom Lighting Grants	Projects, including street lighting	900				
E/G 251	C/I New Construction	Projects	100	Projects	1	Projects with electric AND gas	4
E/G 253	Resource Conservation Manager - RCM	Projects	120	Projects	6	Projects	30
