Comments These meters are dangerous and the facts/findings are clear on this. Do you really want to be held liable (as individuals!!!) for all of the damage this is sure to cause people? Surely not. Nobody, especially the children, deserve these meters. Please think again, look deeper, make a new and better decision. The change can start with you.

And on another note, why are people only be given until today to comment on this? This period should definitely be extended in all fairness to people who may not be able to reply straight away. A couple of weeks sounds much more reasonable of a time period.
