Citizen Concerns about Insufficient Examination and Regulation of Certain Aspects of Impending Smart Meter (AMI) Programs of WA

I am extremely concerned about your plan to put smart meters on homes and businesses around Washington. I am a concerned citizen who is very knowledgeable and dedicated to living a healthy life. I absolutely do not want smart meters installed. We should have the freedom to choose and choose wisely in alignment with my value of health I will and I ask you to support this for me, my family, my community and especially for all those people who don't know the health risks associated with smart meters. Be smart by listening to people who care about the wellbeing of all people. To us thriving - no smart meters without consent and knowledge!

Thank you,

***Gina Diamond, M.Ed.
Langley, WA***
