Re: Consolidated Matters: Jammie’s Certificate Application / Basin Disposal v. Jammie’s Dockets TG-220243 and TG-220215

Dear Ms. Maxwell:

Jammie’s Environmental Inc. (“Jammie’s”) inadvertently filed Document No. 05 in support of its Application for New Solid Waste Certificate without the required mark-ups designating confidential information. This document consists of Jammie’s Master Services Agreement with Packaging Corporation of America (“PCA”) and its 2021 Rate Sheet. Shaded information in these documents is designated as Confidential per WAC 480-07-160 and the Protective Order in the above dockets because they contain Jammie’s valuable commercial and financial information. The public disclosure of this information would cause Jammie’s competitive harm and other parties such as PCA, who is the counterparty to the Master Services Agreement.

We ask that you replace the originally filed document with the confidential and redacted versions of the same document submitted with this letter.

Please do not hesitate to contact me if you have any questions.

Very truly yours,

David S. Steele
