The Energy Project works with Community Action Agencies that provide rate assistance and energy efficiency programs to low income customers of Puget Sound Energy. The Energy Project also works with utilities to develop and expand rate assistance, energy efficiency programs for low income customers. The Energy Project is a frequent party in general rate cases and other dockets when energy affordability and customer service polices are at issue. The Energy Project advocates for the interests of low income customers of Puget Sound Energy and is concerned about the effect a rate increase will have on those customers' ability to afford gas service for their family homes.

The Energy Project has a substantial interest in the proposed transaction and will be the only party to focus its inquiry solely on the interests of low income customers. The Energy Project's intervention in this docket will not unreasonably broaden the issues or delay the proceeding. It is in the public interest to grant this petition of The Energy Project.

The Energy Project respectfully requests the Commission to allow our petition to intervene in this docket.

Dated at Seattle, Washington, this 16th day of November, 2010

Respectfully submitted,

Ronald L. Roseman
Attorney
