C. The Coalition is a non-profit organization under section 501(c)(3) of the Internal Revenue Code. The Coalition provides technical and policy leadership on energy issues in this region, and seeks to promote the development of renewable energy, energy conservation, and affordable energy services. Due to its historic and ongoing work with utility companies and others to achieve these goals, the Coalition possesses a substantial interest in the outcome of this proceeding.

D. The Coalition has a special interest in this proceeding for the following reasons, among others: (1) members of the Coalition will be affected by rate changes that may result from this proceeding; (2) rate modifications that occur as a result of this proceeding may affect customer investment in energy efficiency and impact low-income customers; (3) the Coalition advocated for and helped implement the decoupling program which we want to ensure is not adversely affected by this proposal; and the Coalition intends to examine these and other issues in this proceeding.

E. The Coalition offers this process considerable expertise in the areas of resource planning, industry structure, and economic and policy analysis. F. The Coalition has no intention of unreasonably broadening the issues, burdening the record, or delaying the proceeding through their intervention.

For the foregoing reasons, the Coalition asks the Commission to grant its Petition to Intervene in this matter.

Respectfully submitted this 27th day of June, 2018.
