Agenda

Plan Performance and 2022 Goals

Risk Model Refresh

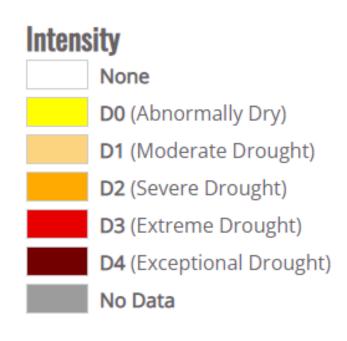

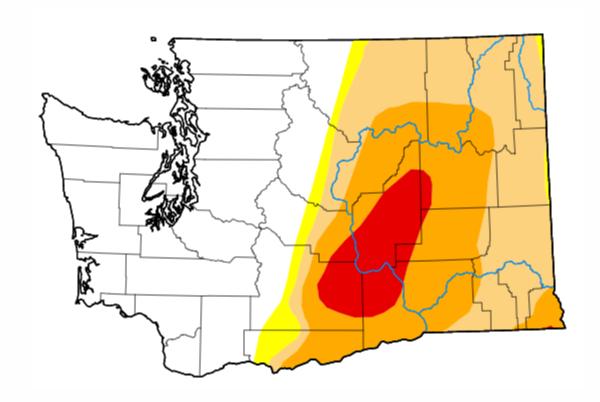

Communications Plan

Fire Season Outlook

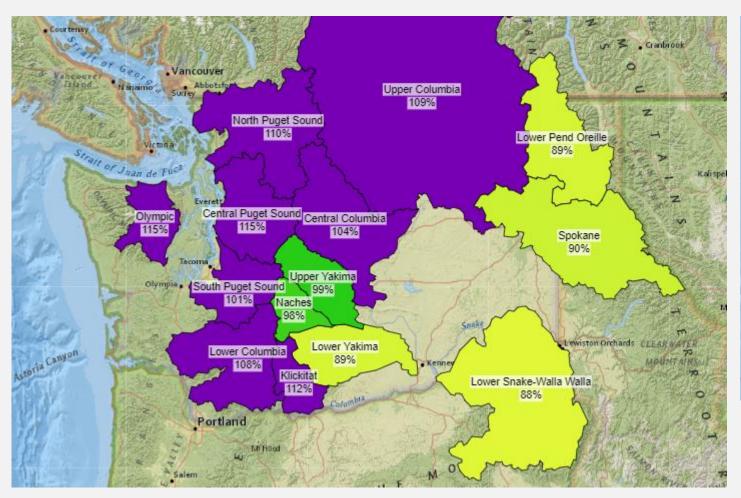

Drought Monitor April 21, 2022

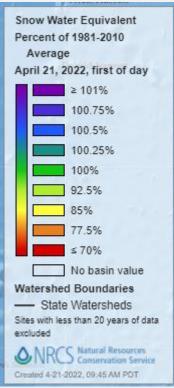

Washington Snow-Water Equivalent (4-21-22)

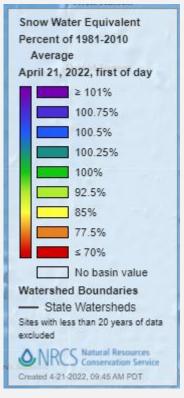

April 2022

6F° Colder than Normal

California Snow-Water Equivalent (4-21-22)

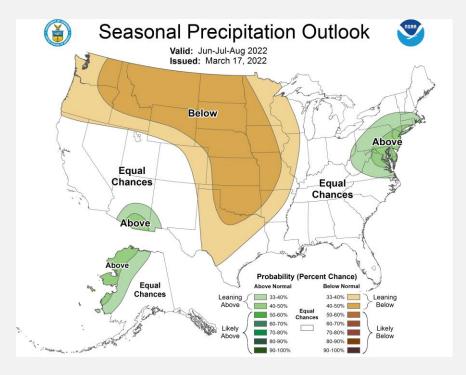

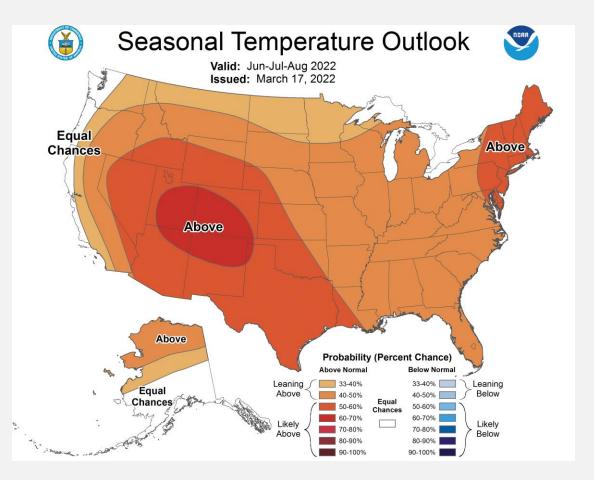

Less than 50% Normal Snowpack

Summer Weather Outlook

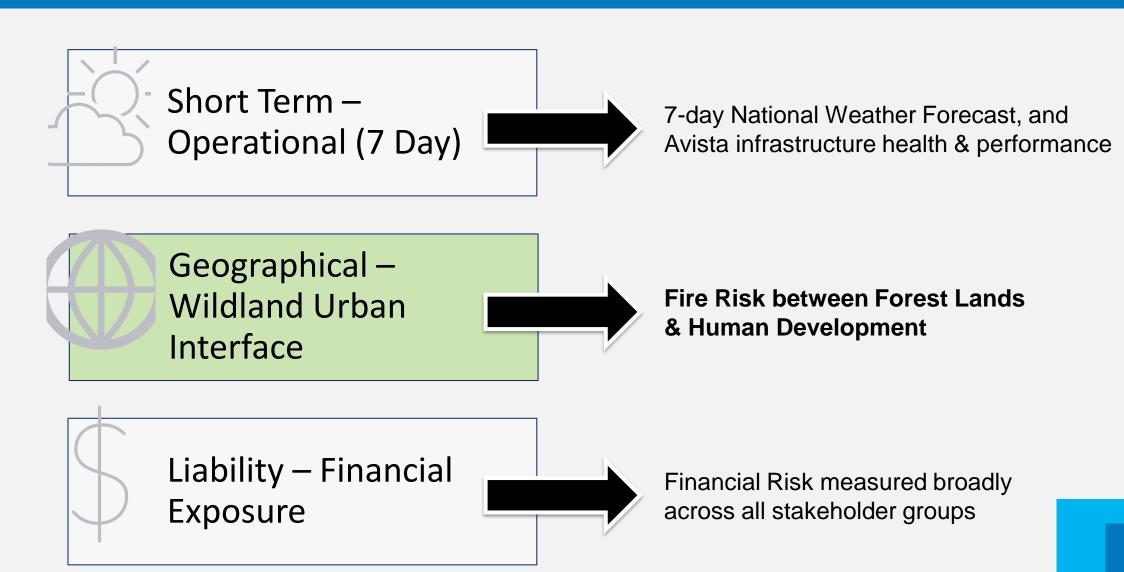

"Intense heat domes used to be rare but have increased dramatically in recent years, a trend that is likely linked to human-caused climate change."

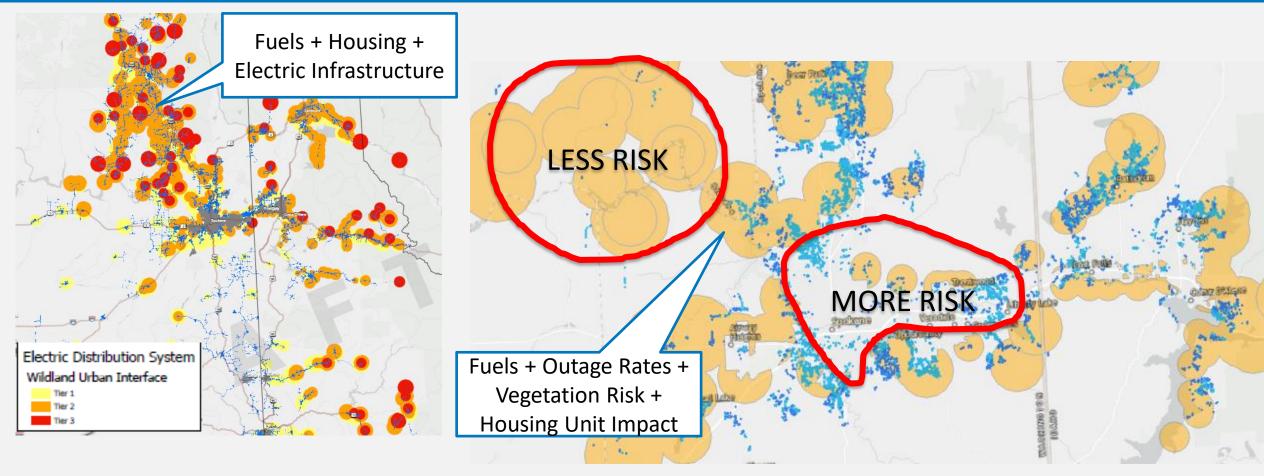

Risk Model Updates

Wildfire Risk Models

Wildland Urban Interface (WUI) Refresh

Tiers 2 (orange) & 3 (red) included In Grid Hardening Program 3,240 miles

Wildland Urban Interface (WUI) Refresh

Trends and Insights

Less Risk in Rural Areas

Increased Risk in Suburban Area

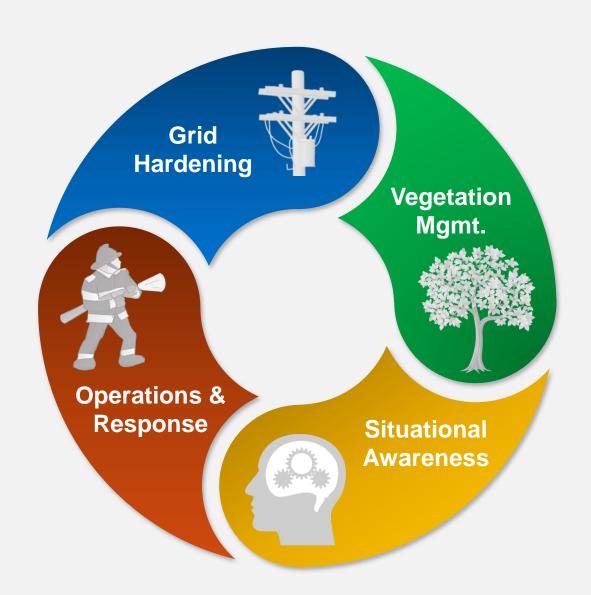

Slight Reduction in Overall Risk

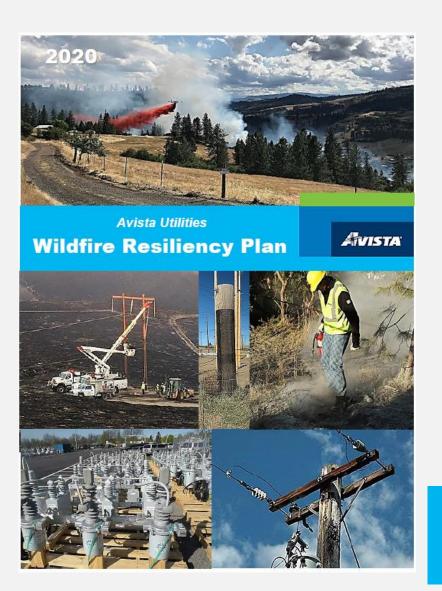

Plan Performance & 2022 Goals

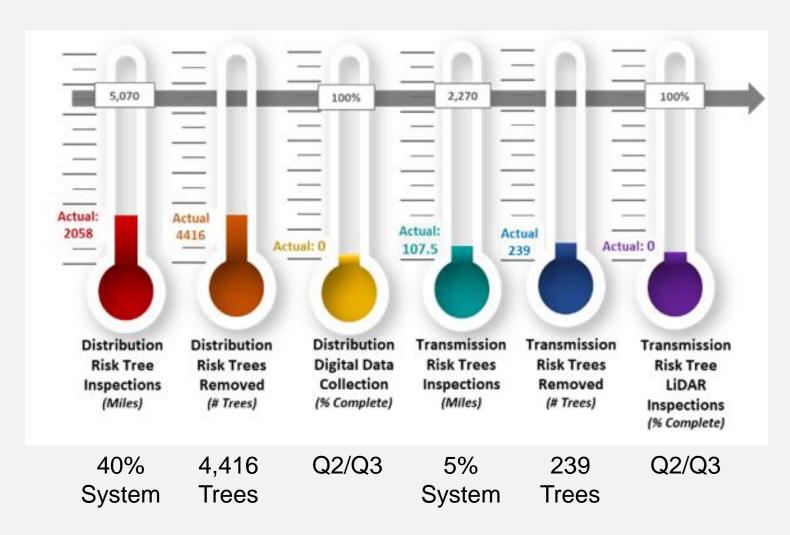

Plan Elements

Risk Based Vegetation (results March 2022)

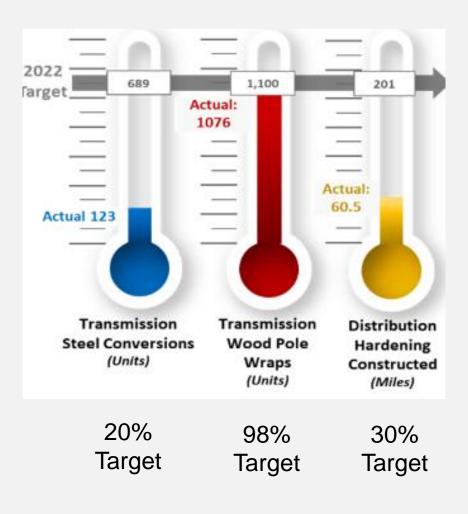

100% of Distribution & Transmission Lines Inspected in 2022

Reduce Tree Fall-Ins

Infrastructure Upgrades (results March 2022)

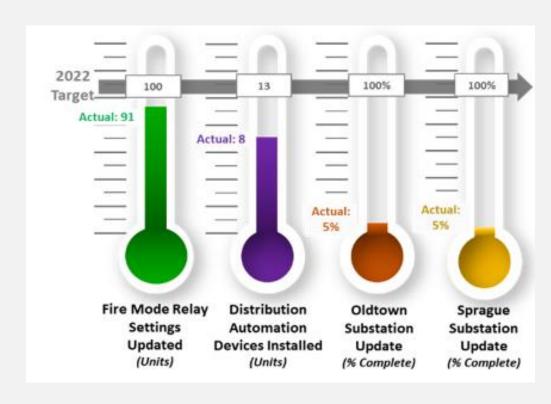

600 Equipment Failures per year (5-yr average)

Reduce
Equipment
Failures

Automated Dry Land Mode (results March 2022)

91% Target

62% Target

Q2-Q3

38% System

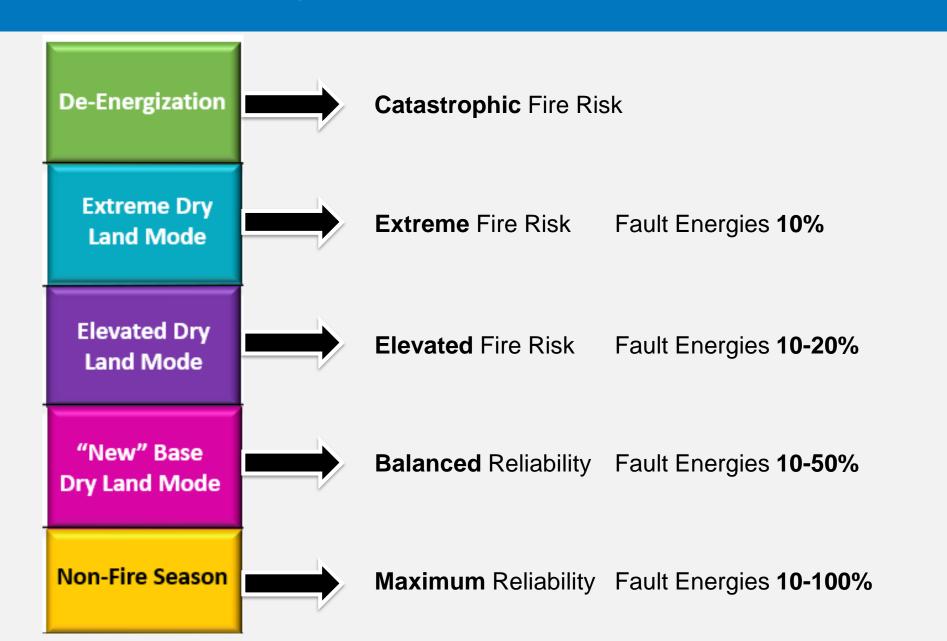

Red Flag Warnings

Align Protection with Fire Risk

Automated Dry Land Mode

Operations & Emergency Response (results March 2022)

Customer Driven Right Tree Right Place

Fire Expedited Response

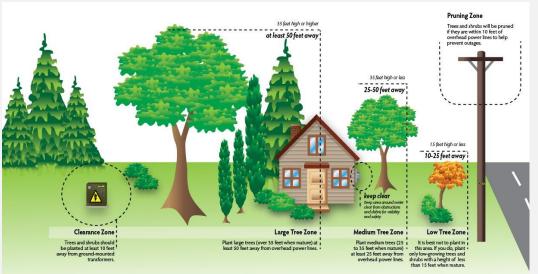

Fuel Reduction Partnerships

Fire Safety Training
