Subject: RE: Training materials for the Avista-UTC Odessa Settlement Agreement, PG-082253

Jodi,

UTC Pipeline Safety staff (Staff) have reviewed the material and are satisfied with the contents. Only one nit to bring to your attention.

The year span for Aldyl "A" installation in the Employee presentation (slide 4) conflicts with the notes found in slide 5 of the Public Workers presentation.

- Employee presentation (Slide 4) say's "Avista installed Aldyl "A" pipe from the "early 1980's through to the early 1990's."
- The PW's presentation (Slide 5) say's "Avista installed Aldyl "A" pipe from the "late 1960's through to the early 1990's."

Please be sure to notify Staff at least three business days in advance of each training session so Staff may observe the training as needed.

Thank you,
David Lykken

Dave,

Please see the attached cover letter and training materials as per the Odessa Settlement Agreement. If you have any questions, please don't hesitate to contact Mike Faulkenberry or me.
