

Tips for Booking

Here are some helpful hints for booking on our new site:

- For Location Type, choose "Airport," "Address" or "Hotel" for your pick-up location, and choose "Airport," "Address" or "Hotel" for your drop-off location. Under "Airport," make sure to choose SEA for Sea-Tac Airport.
- Our system uses official airline codes (<http://www.tvlon.com/resources/airlinecodes.htm>) and some might not sound familiar. For example, Southwest Airlines is "WN."
- When entering your flight number in the field, enter only flight numbers not the preceding airline letters. For example: for Hawaiian Airlines flight HA29, enter only 29.
- Please have your complete flight info ready, since our system checks for accurate flight data to make sure we get you there on time.
- Spell out direction designations – for example, "NE" should be "Northeast."
- Enter your phone number in this format: 000-000-0000; if you have an international number, just enter zeros in this format.

Thanks for choosing Shuttle Express—we appreciate you!
