PMSA DATA REQUEST NO. 744: Admit that neither physical copies nor electronic and online access to source data documentation referenced as "Source: IHS Markit's Global Trade Atlas" was ever provided in response to DRs in support of your testimony in this case. If denied, please demonstrate the provision of such documentation.

RESPONSE:

Deny. In response to DR 390, I identified this data and noted that the data table on the "Exports by Port" table or worksheet is sourced through the IHS Markit's Global Trade Atlas and was available to clients on a platform for which I provided the link. PMSA has made no effort to become an IHS Markit client and gain access to this proprietary database, which is provided only to clients who agree to the terms of a nondisclosure agreement and pay the fees necessary to gain access to this database.

PMSA DATA REQUEST NO. 745: If the failure to provide access to the Global Trade Atlas datasets in prior responses to PMSA DRs was an oversight, please confirm and provide access details in response to this Data Request, or in the alternative, if it was intentionally not provided, please confirm.

PMSA DATA REQUEST NO. 757:Regarding Exh. KAE-05T 12:17-20, please provide all data and statistics upon which you relied to conclude "the fact that significantly higher pilotage rates in a number of West Coast port clusters than those proposed by PSP are not driving vessel traffic away from those ports."

RESPONSE:

This testimony was based on my knowledge of the relative consistency of vessel traffic calling at ports on the Columbia River and small West Coast ports such as Grays Harbor, which have relatively high pilotage rates compared to Puget Sound.

PMSA DATA REQUEST NO. 758: Further regarding Exh. KAE-05T 12:17-20, please provide all vessel traffic data for the ports served by pilots in the Puget Sound, British Columbia, Prince Rupert, San Francisco Bay, Columbia River and Bar, Los Angeles, and Grays Harbor, prior to the July 2022 and after July 2022.

RESPONSE:

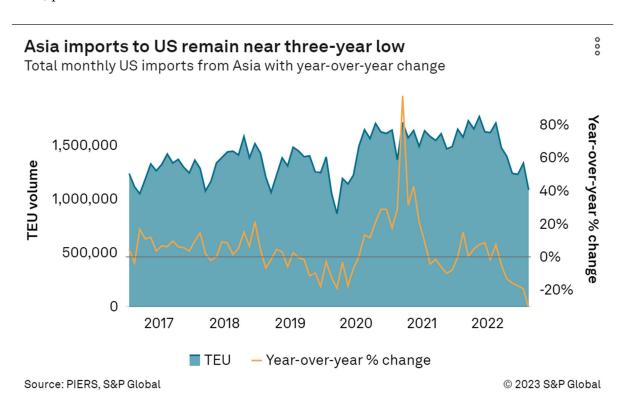

Objection on two grounds. First, this request has no time parameters. Second, this data was not assembled as part of my work as an expert witness for PSP and is readily available from public sources to any interested party including PMSA.
