Re: Alderlake Water System ID #26995H
Pierce County

Dear Derek:

Per our conversation and your letter of June 27, 2001 concerning the above project Western Engineering, Inc. will be submitting corrections to their engineering report the week of December 10, 2001.

The Water Company has made a loan application for the water system improvements because the Alderlake water system is regulated by the WUTC. The loan will have to be approved by them prior to construction.

We will keep you advised as to the progress and time schedule.

Should you have any questions or need further information, please call me at 9206) 282-4200.

Sincerely,

David Dorland
