**RE: Docket UE-210191 Informational Filing
PSE Q4 2022 Transportation Electrification Summary Report**

Dear Ms. Maxwell:

In connection with Docket UE-210191, Puget Sound Energy (“PSE”) hereby submits, its first Transportation Electrification Summary Report as of fourth quarter of 2022. PSE made the commitment in PSE’s Addendum to its 2021 Transportation Electrification Plan dated July 14, 2021, under the same docket (“Addendum”). The Addendum outlines that PSE will release, through an informational filing with the Washington Utilities and Transportation Commission (“Commission”), periodic reports to Transportation Electrification Plan (“TEP”) stakeholders. These periodic reports will focus on major program progress or changes, expenses, and revenues. This Q4 2022 Transportation Electrification Summary Report covers activities since the Commission acknowledged PSE’s TEP.

PSE’s Q4 2022 Transportation Electrification Summary includes updates for the following areas:

- Progress of Phase I electric vehicle products and services, which were approved by the Commission in the spring of 2022;
- 2023 planned changes to Phase I electric vehicle products and services, including expanding assistance to organizations serving Named Communities, as defined in Washington State Clean Energy Transformation Act;
- Phase II of electric vehicle products and services that PSE has been working on in 2022 and is looking to implement in 2023 after the Commission’s approval in first quarter of 2023; and
- Transportation electrification products and services operating costs.

Ms. Amanda Maxwell, Executive Director and Secretary
