RE: 2023 Natural Gas Schedule 111 Climate Commitment Act Compliance Filing, on behalf of
Puget Sound Energy
Docket UG-230470

Dear Jeff Killip:

On August 3, 2023, the Washington Utilities and Transportation Commission (Commission) entered Order No. 01 (Order or Order 01) in Docket UG-230470 regarding proposed tariff revisions by Puget Sound Energy (PSE or Company) related to the Washington State Climate Commitment Act (CCA). Order 01 allowed PSE's proposed tariff revisions to become effective, subject to conditions, which include the Company developing and proposing a risk-sharing mechanism to balance compliance risks between the Company and its natural gas customers.

On April 25, 2024, PSE submitted a compliance filing in Docket UG-230470, PSE's 2023 Natural Gas Schedule 111 CCA Tariff Filing. This compliance filing demonstrates PSE has achieved the target outlined in UG-230470, Order 01, Paragraph 20; PSE confirms as of Jan. 1, 2024, it had enrolled 70,641 customers as identified low-income or potential low-income. PSE has flagged all 70,641 accounts as eligible for the cap-and-invest credit under the Climate Commitment Act.

Commission Staff has reviewed the Company's filing and believes that the submitted compliance report satisfies Condition 4 of the Order.

Sincerely,

Corey Cook
